3+ Years Experience | 20+ Projects | Up to 140% Organic Growth

About Me

Abdullah Samir

SEO Specialist

I’m an SEO Specialist with 3+ years of experience helping businesses in Egypt, Saudi Arabia, and the UAE turn organic search into a reliable source of traffic, leads, and revenue. I specialize in legal, medical, and service-based websites, where trust and search intent decide who wins the client.

I combine technical SEO, content strategy, and data analysis in GA4 and Search Console to find growth opportunities and act on them. I also optimize brand visibility in AI Overviews, so my clients are found wherever their customers search. Every project is built around one goal: measurable growth, not just higher rankings.

Experience

Mrooj Marketing Agency | SEO Specialist | Oct 2025 – Present

I manage and execute SEO strategies for a portfolio of 6 clients across different sectors and markets, from analyzing the current situation and identifying growth opportunities to implementing and tracking the strategy.

- Developed tailored SEO strategies based on each business's nature, competition, and target audience, growing organic traffic by 70% in 5 months.
- Analyzed keywords and search intent to build content plans aligned with growth opportunities, producing 40+ strategic content briefs.
- Implemented technical and on-page improvements to boost crawlability, indexation, and page performance, lifting conversion rate by 25%.
- Built link-building strategies to strengthen site authority in search results.
- Analyzed performance using GA4, Google Search Console, and SEO tools to drive data-based decisions.

Business Spike Financial Consulting | SEO Specialist | Apr 2024 – Oct 2025

I helped grow the organic visibility of a financial consulting website by combining market analysis, keyword research, and continuous improvement of the site and its content.

- Identified high-value commercial keywords and growth opportunities, improving rankings for 80+ keywords within a year.
- Optimized service pages and content to match user intent and search engine requirements.
- Resolved technical issues and improved site structure and internal linking, increasing page speed by 35%.
- Developed strategic content targeting topics and phrases most relevant to the business's services, contributing to a 60% increase in inquiries.
- Tracked ranking and organic visibility trends and analyzed data to guide SEO efforts.

Experience

Freelance | SEO Specialist | May 2025 – Present

Alongside my full-time roles, I independently manage SEO projects for clients across multiple sectors, delivering tailored solutions that start with analysis and end with measurable results.

- **Worked on 12+ projects across medical, legal, consulting, and service websites, as well as e-commerce stores.**
- **Completed 15+ technical SEO audits and competitor and keyword analyses, raising indexed service pages by 30%.**
- **Built content strategies based on search intent and ranking opportunities, achieving 90% average organic traffic growth within 6 months for most projects.**
- **Optimized on-page SEO, site structure, internal linking, and Schema Markup, ranking 35+ high-intent keywords in the top 5 results.**
- **Executed off-page strategies and built 60+ high-quality backlinks, raising Domain Authority by an average of 8 points.**
- **Used Screaming Frog, Google Search Console, GA4, and SEO PowerSuite to analyze performance and drive data-based decisions.**

Proven Results & Case Studies

A look at SEO strategies that turned organic search into an effective channel for growth and revenue.

Project 1

Ophthalmologist Website | Saudi Arabia

The Challenge:

The website suffered from weak search visibility. The goal was to increase reach to potential patients through Google.

What I Did:

Analyzed the website's performance, keywords, and pages, identified improvement opportunities, then implemented the optimizations and tracked their impact continuously.

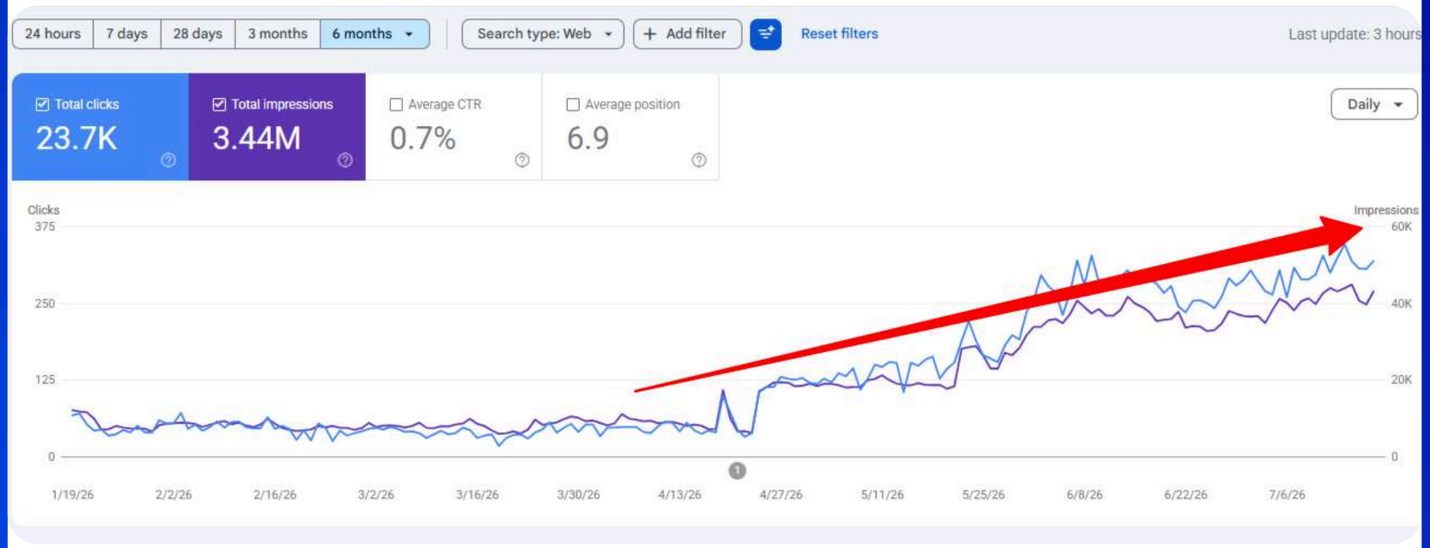

Monitoring & Optimization:

Tracked results regularly in Search Console, and updated pages and queries based on the data.

The Result:

Within 6 months, the website reached 23.7K+ clicks and 3.44M+ impressions, with an average position of 6.9.

Results Over 6 Months

Project 2

Law Firm Website | Saudi Arabia

The Challenge:

The website’s performance was limited at the start, with a slight decline in clicks and impressions.

What I Did:

Analyzed the website’s pages and keywords, identified growth opportunities, then implemented the improvements gradually.

The Result:

With continuous monitoring and optimization, performance improved clearly. Within 3 months, the website reached 13.6K+ clicks and 1.46M+ impressions, with an average position of 8.4, and held at the higher level.

Results Over 3 Months

Project 3

Law Firm Website | Riyadh, Saudi Arabia

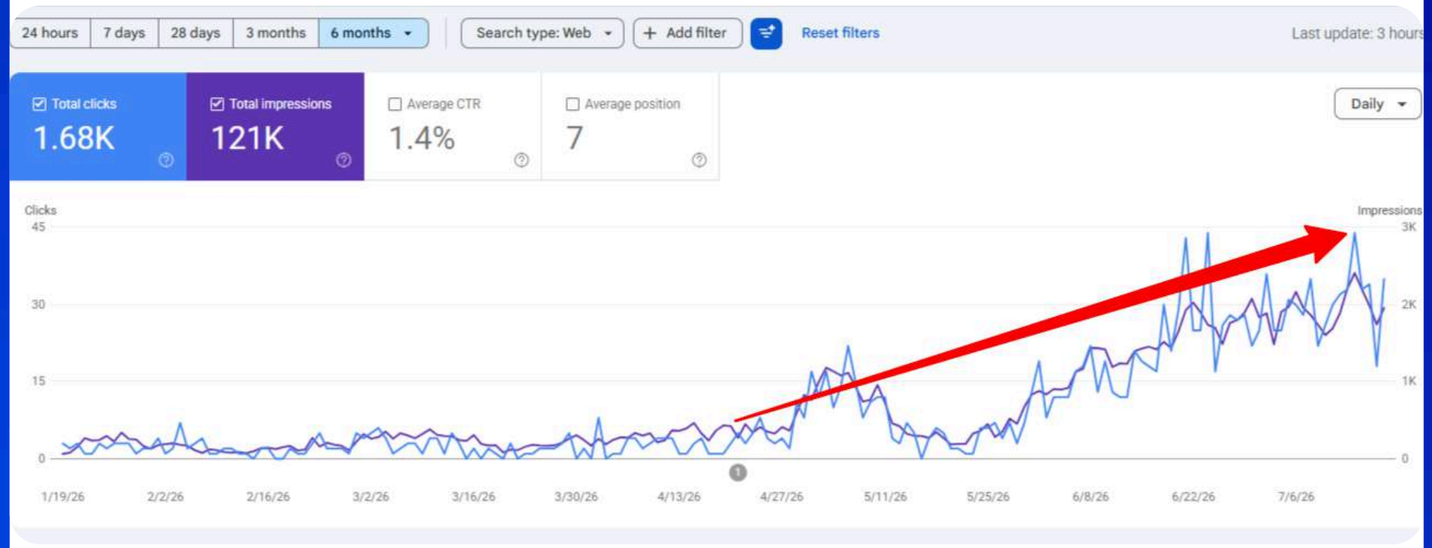

The Challenge:
The website suffered from weak visibility and low clicks. The goal was to reach more potential clients through Google search results.

What I Did:
Analyzed the website's performance, keywords, and pages, and identified improvement opportunities. Then I optimized the content and target pages to match search queries.

Monitoring & Optimization:
Tracked performance in Search Console regularly, followed the growth in clicks and impressions, and updated pages and queries based on the data and results.

The Result:
Within 6 months, the website reached 1.68K+ clicks and 121K+ impressions, with an average position of 7 and a CTR of 1.4%.

Results Over 6 Months

Project 4

Conversion-Focused Website Copywriting

Overview:

I don’t treat website content as plain descriptive text. I build it to play a clear sales role: explaining the value of the service, handling the client’s hesitation, and guiding them toward a buying decision.

What I Focused On:

- Highlighting the value of the service and its benefits to the client.
- Writing headlines and messages that grab attention and make the offer clear fast.
- Structuring content around the client’s journey, from discovering the service to making a decision.
- Using persuasion elements and answering likely objections.
- Placing CTAs in the right spots to encourage action.
- Balancing informational content with the page’s sales goal.

The Result:

Service pages that don’t just introduce the service, but work as part of the marketing and sales process, turning visitors into potential clients.

Section 1 — Hero

H1: Professional Web Design That Turns Your Visitors into Real Clients

Subheadline: Your website is the first impression clients get of you. We design it to sell, not just to impress.

Button: Get a Free Consultation

Trust bar: 300+ Websites Delivered | 5+ Years of Experience | 4.9★ Rating | Clients in Saudi Arabia & the UAE

Section 9 — Satisfaction Guarantee

H2: Full Satisfaction, or We Redesign It for Free

Text: We’re so confident in our work that we guarantee it in writing. If you’re not happy with the design at the review stage, we’ll redo it completely, at no extra cost and no arguments, because our goal is a website you’re proud of, not one we hand over and disappear.
